Group Inc.

## Notes to Readers

## Purpose of this document

This Supplemental Information and Regulatory Disclosures Report (the "Report") aims to provide the readers with the following regulatory disclosures and other additional voluntary disclosures that will assist the readers' assessment of business performance of Equitable Group Inc. (the "Company" or "Equitable").

1. Disclosures related to the Company's mortgage portfolio, some of which relate to disclosure requirements outlined in OSFI's Guideline B-20, 'Residential Mortgage Underwriting Practices and Procedures', effective for Equitable Bank on January 1, 2013.
2. Equitable Bank (the "Bank")'s regulatory capital Basel Pillar III disclosures.

## Use of this document

Readers are cautions that financial information contained in this Report include both Generally Accepted Accounting Principles ("GAAP") and non-GAAP measures. The latter often does not have any standardized meaning, and therefore, are not comparable to similar measures presented by other financial institutions.

This Report should be read in conjunction with the Company's 2018 annual report.

## Basis of presentation

All amounts in this Report are Canadian dollars and quarterly numbers are unaudited.
GAAP measures have been prepared in accordance with International Financial Reporting Standards ("IFRS") unless otherwise stated. Non-GAAP measures used in this Report are defined under the Section "Non-GAAP measures".

## Adoption of IFRS 9

Effective January 1, 2018, the Company adopted IFRS 9 Financial Instruments ("IFRS 9") issued by the International Accounting Standards Board ("IASB"), which replaced the IAS 39 Financial Instruments: Recognition and Measurement ("IAS 39"). Please refer to Notes 3 and 5 to annual consolidated financial statements for a summary of the Company's accounting policies as it relates to IFRS 9 and the transitional impact of IFRS 9 on January 1, 2018. We restated the opening retained earnings balance on January 1, 2018 to reflect the impact of the new requirements but did not restate the comparative periods, as permitted by the standard. Therefore, the provision and allowance for credit losses and related ratios for 2018 periods versus the prior periods are not directly comparable.

[^0]Prior year period comparatives were prepared in accordance with IAS 39 and have not been restated. As a result, current year disclosures are not directly comparable to prior year periods.
${ }^{(2)}$ These adjusted results are derived by removing after-tax mark-to-market gains/losses on certain preferred shares and derivatives from reported results.
Q2 2018 and YTD 2018 results are also adjusted for the after-tax write-down of unamortized upfront costs associated with the reduction of the Company's secured backstop facility.
${ }^{(3)}$ YTD EPS may not equal the sum of the quarterly EPS' as a result of rounding and the computation of in the money options for the year versus the quarter.
${ }^{(4)}$ See Non-GAAP Measures section.
${ }^{(5)}$ Increases in this ratio reflect reduced efficiencies, whereas decreases reflect improved efficiencies.

${ }^{(3)}$ HELOC includes HELOC, SHELOC, and PATH Home Plan.
The loan-to-value ("LTV") of HELOC represents the authorized amount as a percentage of the original property value at the time of origination.
In the case of non-standalone HELOCs, there are mortgages associated with most of these properties, but the aggregate LTVs are not presented on this chart. Aggregate LTVs do not exceed $80 \%$.
For SHELOCs, there are no mortgages associated to these properties.

Table 17: Average loan-to-value of existing uninsured residential mortgages ${ }^{(1)(2)(3)(4)}$

${ }^{(1)}$ Geographic location based on the address of the property mortgaged.
${ }^{(2)}$ Based on current property values. Current values are estimated using a Housing Price Index.
${ }^{(3)}$ The LTV of our HELOC (HELOC, SHELOC and PATH Home Plan ) products is not included in this chart.
${ }^{(4)}$ Equitable has arrangements with other lenders to participate in its single family residential loans in certain circumstances, namely if Equitable wants to cap the value of its own exposure to stay within the boundaries of its risk appetite while still meeting a borrower's needs. The arrangements, which have been entered into in the normal course of business at arm's length and on market terms, are structured such that the other lenders' participation would always bear the first loss on the mortgage. The loan-to-value ratios above therefore do not take into account the other lenders' participation in order to reflect both the substance and legal form of Equitable's exposure. Equitable underwrites the loans based on the total value of its own advance and the other lender's participation to ensure that the borrower is able to service the aggregate amount of the loan. Other lenders' participation in Equitable's single family residential loans was $\$ 42.7$ million at December 31, 2018 (December 31, 2017 - $\$ 52.2$ million).

${ }^{(1)}$ Please refer to the 2018 MD\&A for additional discussion regarding the adoption of IFRS 9 . Effective January 1, 2018, the amounts and ratios have been prepared in accordance with IFRS 9 .
Prior year comparatives were prepared in accordance with IAS 39 and have not been restated. As a result, current year disclosures are not directly comparable to prior years
${ }^{(2)}$ These adjusted results are derived by removing after-tax mark-to-market gains/losses on certain preferred shares and derivatives from reported results.
2018 results are also adjusted for the after-tax write-down of unamortized upfront costs associated with the reduction of the Bank's secured backstop facility.
${ }^{(3)}$ NIM of 2014-2018 was calculated based on the daily average balances outstanding during the period. NIM for 2013 or prior years was calculated using the average of the month-end balances outstanding during the period.

The 2007-2012 RWA and Capital Ratios, as applicable, were calculated using the Basel II framework. Basel III and Basel II are not directly comparable. Capital measures for December 31, 2009 were calculated in accordance with previous Canadian GAAP.
${ }^{(5)}$ The CET1 Ratio is effective the first quarter of 2013, thus it is not applicable for the prior years.
${ }^{(6)}$ The Leverage Ratio is measured under Basel III framework, effective the first quarter of 2015 . Thus it is not applicable for the prior years.
